

Some rainfall last week, but still considerably below average and not seeing any significant increased streamflows. Forecast for some precipitation over Christmas weekend, with dry conditions following.

*Note: Percentages in each plot refers to percent of average for this date. When historic data is unavailable, Snow Water Content Bar plot is not shown. The percent of historic average for each SWC location differs slightly from CDEC's report due to small discrepancies in historical data.

6-Day Forecast Precipitation (inches)
